

## Sample Curriculum

Instructor: Emona Ji

### Projects:

- Final project: Study a contemporary artist, and create a piece inspired by their style.  
HW ideas for this project:
  - Find your artist
  - Add 5 photos of their work on a slide and share it with me
- Using black and white to differentiate shades, and values, and to show contrast in landscapes. Then using color can create an original picture using black and white as the reference
- Tutorials for the body (hands, legs, figures)
- Tutorials for portraits (side profile,  $\frac{3}{4}$  profile, proportions)
- Create an abstract piece based on your favorite song and how it makes you feel or create a work that visualizes a lyric/verse

Students will have a lot of in-class work time.
